Avionics TDR & Avionics TDR Kit

Ultimate in Hand-held Step TDR Technology is now available in two Avionics Models

Avionics TDR Kit

Avionics TDR

The Avionics TDR and TDR Avionics Kit are designed specifically for testing and fault location on aircraft wiring. Both models have been upgraded to include military grade RF shielding and explosion proof TDRs. The Step TDR is ideal for troubleshooting **all types of coax, twisted pairs, single-wires in a harness, and aircraft power cables.** Whether testing a new harness for complete connections or aging aircraft wiring this TDR will provide the most accurate trace of the cable's impedance over length and detect even the smallest faults. Both models include: ETDR PC Vision™ software for trace documentation and new avionics training presentations. See reverse for complete details on each model.

Boeing approved model

Features

- Ranges: from 0-10ft (0-2m) to 20,000 ft (5Km)
- No dead zone on any range setting
- Range Zoom on Cursor
- Impedance zoom using Z Scale
- Cursor reading down to $\pm \frac{1}{2}$ inch ($\pm 8\text{mm}$)
- Cable List with up to 64 avionics cable types
- BNC and RJ45 connectors standard
- Setup Wizard – step-by-step start up assistance
- Context sensitive help
- Cell phone style alpha-numeric entry pad
- Keypad LED indicators for active function
- Cable toning – coax, pairs, or single-wires
- Stores 32 traces with name, date & time
- Rechargeable NiMH AA cells (included)
- ETDR PC Vision software (included)
- Kit Case is ATA rated and MIL-STD tested

Benefits

- Test coax, twisted pairs, or single-wires in a harness
- Wire-to-wire or wire-to-airframe
- Accurate and clear trace indication of faults
- Kit includes pin an socket test leads for harness connectors sizes 12, 16, 20 and 22
- Kit adds secure, but convenient, accessory access with anti-FOD layout in ATA 300 Cat 1 rated case
- Save, upload, print or email TDR's traces
- Find faults other TDRs miss - Micro Fault locating
- Clear wiring trouble more quickly with less testing
- Customize, upload, and download Cable Lists
- Saved traces are also saved setups for recall
- Avionics TDR is RF shielded and has both cable Noise Detection and Noise Filtering
- Locate coax, pairs, single-wires via Tone Function
- Setup Wizard helps new users and aids training.

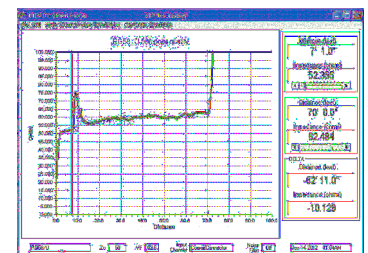

Coax-high impedance (Z) & open far end

Coax crimp using MicroFault locating

Avionics TDR & Avionics TDR Kit

Ordering Information

Avionics TDR

Part Number
6021-5054

Kit Includes:

Avionics TDR, EMI shielded & explosion proof with BNC and RJ-45 connectors and aviation cable list. Soft carrying case, belt case, AC power adapter, BNC-to-alligator clips test lead, 8AA NiMH cells (installed), USB Cable. Basic Guide, Quick Start Guide, CD-ROM with ETDR PC Vision software, Operation Manual, Training Presentation, Application Notes, and Calibration Certificate with data.

Avionics TDR Kit

Part Number
6021-5154

Boeing approved model

Kit Includes:

Avionics TDR, EMI shielded & explosion proof with BNC and RJ-45 connectors and aviation cable list. Hard carrying case with anti-FOD/easy accessory access layout, belt case, AC power adapter, 8AA NiMH cells (installed), USB Cable. Test leads:

- BNC(m)-to-BNC(f) 6ft (2m) 50 Ohm cable
- BNC-to-alligator clips
- BNC-to-pins, sizes 12, 16, 20, and 22
- BNC-to-sockets, sizes 12, 16, 20, and 22
- RJ-45-to-RJ-45 6ft (2m) Cat 5 (ISO class D) cable

Basic Guide, Quick Start Guide, CD-ROM with ETDR PC Vision software, Operation Manual, Training Presentation, Application Notes, and Calibration Certificate

Examples:

Pin, Socket, and Alligator Clip Test Leads

Coax Test Lead

RJ45 Test Lead

USB Cable

Key Specifications (visit aeatechnology.com for more)

Avionics TDR

Max Ranges: 20Kft (5Km) @ .99c or 14Kft (3300m) @ .66c
 Min Range: 0-10ft (0-2m)
 Range Scales: 11 selectable ranges
 Range Acc: <0.2% ±1 inch (2.5cm) + VF uncertainty
 Z Accuracy: <2% (Cable Z=45 to 125 Ohms)
 Resolution: 0.5 inch on 10ft range scale or 10ft Zoom (8mm on 2m range scale or 2m Zoom)
 Dead Zone: Zero on any range setting
 Z Ranges: 20, 50, 100, 200, 500, & 1,000 Ohms
 Cursors: 2 independent and differential readings
 Memory: 32 traces with 1920 data points (feet), 2000 data points (meters), name, date, and time.
 Adv Features: Test Lead Null
 Micro Fault Locating
 Setup Wizard - step-by-step setup instructions
 Context Sensitive Help
 Cable List: 64 Cable types with their Z and VF. PC upload or download custom cable lists
 Tones: 900/1100Hz warble, 977.5, 850, 577Hz steady or pulsed & Pocket Toner enable
 Display: Quarter VGA transfective & backlit
 Comms: USB-2/serial
 Internal Power: 8 AA NiMH cells (installed) ~7.3 hours continuous operation on single charge (reduced by backlight)
 Alternate Cells: 8 AA alkaline, ~ 7 hours continuous operation (reduced by backlight)
 External Power: 90-240VAC 50/60Hz adapter to 15VDC

Avionics TDR (continued)

Size: 8.5 x 4.3 x 2.25 inches (216 x 109 x 57mm)
 Weight: 2.2 lbs (1Kg) with batteries and belt case
 Environmental: Splash and dust resistant
 Explosion Proof: MIL-STD 810G, Method 511.5, Procedure 1
 Ruggedness: MIL-STD 810G Transient Drop tested, 48 inches (122cm) to hard surface, 26 drops
 RF Shielding: MILSTD 461F susceptibility and emissions,

Avionics TDR Kit's Hard Carrying Case

FOD protection: Custom foam for item securing and lid label for item ID and locating
 Transport: ATA 300 Category 1 rated
 Size: 18.1 x 13.7 x 6.9 inches (48 x 35 x 18 cm)
 Weight full: 11.5lbs (5.2Kg) with TDR and all accessories
 Environment: MIL-STD-810F impact damage, UV, solvents, and fungus resistance
 MIL-STD-C4150J waterproof & dust tight
 MIL-STD-648C ambient pressure equalization
